# AMO Annual Conference
## Updates

January 6, 2020

### Cybersecurity and Ontario's Municipalities

Pre-Session at the 2020 AMO Conference

Attending the AMO Conference this year? Looking to build your knowledge on an important topic for municipalities before the Conference starts? On the Sunday morning, AMO and the Municipal Information Systems Association of Ontario (MISA-ON) are co-hosting a half day session on municipal cybersecurity.

On a daily basis, municipalities across the world are under threat from cyber attacks. Recently, many of Ontario's municipalities have had to cope with technology enabled attacks such as ransomware, denial of services, data theft, fraud, and many others as well as the fall out of these cybercrimes.

Join us the morning of Sunday, August 16 where experts will speak in plain language about what elected officials and CAOs need to know so municipalities can work towards building and maintaining resilient systems to cope with ever increasing cyber threats.

Speakers and program TBD. Stay tuned to AMO Conference email updates for further details.

Remember to **reserve your hotel room** for this year's AMO Conference. Bookings open on Tuesday, January 7 at 10am EST.
