

PETITION Regarding County Road 22 Reconstruction

Person(s) Submitting the Petition:	Ross and Michele Hughes
ADDRESS:	1267 County Rd 22, Belle River, Ontario, N8L 0H6
PHONE/EMAIL:	519-919-5406

To: Mayor, Members of Council County of Essex and the Municipality of Lakeshore

We the undersigned residents petition the Council for the County of Essex, and the Municipality Lakeshore as follows:

We are writing to bring to your attention a matter of public safety and significant financial burden concerning the residents and users of County Road 22 related to the Proposed Reconstruction of County Road 22.

Address Safety Concerns- high volume of traffic on County Road 22 is unsafe to encourage pedestrians and cyclists. Boulevards with benches and trees will block sight for every driver going into or exiting a driveway or business, significantly increasing risk of serious injury or fatality.

Reduce Financial Burden- substantial and unnecessary financial burden to all taxpayers to acquire the land to widen County Road 22 as proposed with cycle tracks, sidewalks, multi-use walkway and boulevards. Additionally, incremental expenses for moving services, connections, and replacing landscaping of the property owners whose land will be required to be purchased, or expropriated.

Recommendation: Reduce scope of the proposal. Reduce width of sidewalk, eliminate cycle track (since there is a multi-use track) eliminate boulevards, benches and trees. These changes will reduce the cost of the project and the burden on the taxpayer. It will mitigate some of the safety concerns (though not eliminate them entirely). Benches are not necessary as people will not sit on a busy street to smell fumes and watch traffic.

Additionally, incremental expenses for moving services, connections, and replacing landscaping of the property owners whose land will be required to be purchased, or expropriated.

Recommendation: Reduce scope of the proposal. Reduce width of sidewalk, eliminate cycle track (since there is a multi-use track) eliminate boulevards, benches and trees. These changes will reduce the cost of the project and the burden on the taxpayer. It will mitigate some of the safety concerns (though not eliminate them entirely). Benches are not necessary as people will not sit on a busy street to smell fumes and watch traffic.

PETITION Regarding County Road 22 Reconstruction

Person(s) Submitting the Petition:	Ross and Michele Hughes
ADDRESS:	1267 County Rd 22, Belle River, Ontario, N8L 0H6
PHONE/EMAIL:	519-919-5406

To: Mayor, Members of Council County of Essex and the Municipality of Lakeshore

We the undersigned residents petition the Council for the County of Essex, and the Municipality Lakeshore as follows:

We are writing to bring to your attention a matter of public safety and significant financial burden concerning the residents and users of County Road 22 related to the Proposed Reconstruction of County Road 22.

Address Safety Concerns- high volume of traffic on County Road 22 is unsafe to encourage pedestrians and cyclists. Boulevards with benches and trees will block sight for every driver going into or exiting a driveway or business, significantly increasing risk of serious injury or fatality.

Reduce Financial Burden- substantial and unnecessary financial burden to all taxpayers to acquire the land to widen County Road 22 as proposed with cycle tracks, sidewalks, multi-use walkway and boulevards. Additionally, incremental expenses for moving services, connections, and replacing landscaping of the property owners whose land will be required to be purchased, or expropriated.

Recommendation: Reduce scope of the proposal. Reduce width of sidewalk, eliminate cycle track (since there is a multi-use track) eliminate boulevards, benches and trees. These changes will reduce the cost of the project and the burden on the taxpayer. It will mitigate some of the safety concerns (though not eliminate them entirely). Benches are not necessary as people will not sit on a busy street to smell fumes and watch traffic.

We are writing to bring to your attention a matter of public safety and significant financial burden concerning the residents and users of County Road 22 related to the Proposed Reconstruction of County Road 22.

Address Safety Concerns- high volume of traffic on County Road 22 is unsafe to encourage pedestrians and cyclists. Boulevards with benches and trees will block sight for every driver going into or exiting a driveway or business, significantly increasing risk of serious injury or fatality.

Reduce Financial Burden- substantial and unnecessary financial burden to all taxpayers to acquire the land to widen County Road 22 as proposed with cycle tracks, sidewalks, multi-use walkway and boulevards. Additionally, incremental expenses for moving services, connections, and replacing landscaping of the property owners whose land will be required to be purchased, or expropriated.

Recommendation: Reduce scope of the proposal. Reduce width of sidewalk, eliminate cycle track (since there is a multi-use track) eliminate boulevards, benches and trees. These changes will reduce the cost of the project and the burden on the taxpayer. It will mitigate some of the safety concerns (though not eliminate them entirely). Benches are not necessary as people will not sit on a busy street to smell fumes and watch traffic.
