

Administrative Report

Office of the Director of Infrastructure Services

To: Warden Tom Bain and Members of County Council

**From: Tom Bateman, P.Eng
Director of Infrastructure Services/County Engineer**

Date: February 7, 2018

Subject: Municipal Drainage Report and Assessment

Report #: 2018-R001-IS-0207-TRB

Purpose

The purpose of this report is to provide information to County Council as well as a summary of the Municipal Drainage Report and associated road related assessment to the County of Essex.

Background

Drainage assessments to the County of Essex are provided for County Council's information under the Consent Agenda.

Discussion

The assessment to the County of Essex for the Ouellette Drain is significant and is the result of the catchment area of County Road 10 and includes a road crossing. The conveyance of water occurs at multiple locations including the South Branch Drain. To ultimately provide outlet to the Long Marsh Drain. The attached Drawing G-001 is an excerpt from the tribunal decision and it illustrates the drainage area.

The following is a list of those reports received since the last meeting showing the estimated total project cost and the assessment to affected County Roads and properties.

Administrative Report
