12.3 Housing with Supports Per Diem Increase

Mr. McNamara noted that at a recent meeting of the Housing Advisory Committee, he inquired with City of Windsor staff about the issue of reviewing the per diems for the Housing with Supports contracted homes, provided through the Community Homeless Prevention Initiative (CHPI). He advised that the City staff had indicated that through an increase in the CHPI funding from the Province, they were recommending that City Council approve an increase over the next two years to the contracted homes in both the City and County.

13. New Business

13.1 Support for Location of New Regional Acute Care Hospital

Mr. McNamara noted that there had been some attention in the media on the subject of the location of the new regional acute care hospital and that since the County of Essex has committed to contributing \$100 million to the new hospital construction, and the location had been selected based on analysis and growth projections, he felt it was time for County Council to reinforce its support for the selected location.

Mr. Maisonville advised that the Minister was aware of the support from County Council on the selected location and that had been informally communicated with their office in recent months.

Warden Bain noted that there may come a time when a more formal communication might be necessary, however he did not feel that would currently be necessary.

Mr. McNamara expressed concern over the project's timeline and the timing of the provincial election. He noted that some local provincial representatives do not support the selected location and there had been some attention to their objections.

Mr. McDermott expressed that when the time came for the County to reaffirm its support, he felt that Windsor City Council should also be requested to do the same as there would mutually benefit and there should be a consistent message.

Mr. Queen noted that he would like the opportunity to speak on the matter during the notice of motions section.

13.2 Concerns with Traffic Delays at County Road 22 and County Road 19

Mr. Bachetti advised that there had been some issues with traffic backing up at the County Road 19/County Road 22 intersection and that he would like to discuss that matter further with Mr. Bateman, perhaps after the meeting, regarding some complaints he had received.

13.3 Landfills in Ontario

Mr. McNamara noted that a recent communication from AMO discussed the issue raised by Mayor Paterson at a previous meeting, regarding a municipality's right of refusal when siting private landfills. He advised that it was AMO's position to support this right for municipalities as the question moves forward in provincial parliament.

13.4 Municipal Election Candidate Information Session

Ms. Birch offered a reminder notice to members of County Council that the Municipal Election - Candidate Information Session was scheduled for April 26th at 7PM at the Civic Centre. She noted that there would be representatives from each local municipality including the City of Windsor, with information specific to each of their local elections and that presentations would include information for anyone who was considering running for municipal council, as well as an explanation of changes to the Municipal Elections Act that would be helpful to anyone, even experienced municipal representatives. Mr. Bachetti requested that Mr. Queen consider including in his motion that City of Windsor Council be requested to also reaffirm their mutual support for the selected location of the new Regional Acute Care Hospital and so advise the Premier and Minister of Health and Long Term Care.
