Subject: 2018 Municipal Elections - Pre-election information input request

AMO is pleased to launch the online pre-election administration webpage. The new election site for entering election information is user friendly and very intuitive.

You are able to enter all relevant election information regarding acclamations, candidates, gender, incumbency, eligible voters, voting method(s) and referendum question(s), prior to the election.

You do not require a login. Click on the following link and you will immediately land on your municipality's pre-election form:

We appreciate your help in entering your municipality's election information to prepare for election night and the live reporting of election results. We are aiming to have all election information submitted by August 10th in preparation for populating the main election website.

On October 22nd we will send a reminder to enter the final results.

If you have any questions about the process or experience any technical problems, please contact Snezana Vukelic, Manager of Information Services, at svukelic@amo.on.ca or call 416.971.9856 x322.
