

W.E.C.D.H.S
WINDSOR ESSEX COUNTY DENTAL HYGIENISTS SOCIETY

May 30, 2018

Dear County Council,

Re: Community Water Fluoridation

The Windsor-Essex County Dental Hygienists' Society (WECDHS) supports community water fluoridation, as an effective, easily-accessible, and inexpensive way to improve the oral health of Windsor-Essex County, regardless of age or income level. We strongly believe in the preventive benefits of fluoride.

We feel Council's decision to reinstate our community's water fluoridation will have a positive effect on the oral health, and thus overall health, of all our residents.

Thanks to Council for considering our input.

Sincerely,

WECDHS
